In order to verify the installs, a device identifier may be shared with the advertiser or third party advertiser or analytics partner.

You can exercise an opt-out for interest based advertising services on mobile applications by checking the privacy settings of your Android or iOS device and selecting “limit ad tracking” (Apple iOS) or “opt-out of interest based ads” (Android). If you would like to adjust your choices regarding the use of precise location data, you may also do so via your mobile device settings. Finally, many of our partner’s that enable online behavioral or interest based advertising are members of one or more digital advertising industry self-regulatory programs.
